## DESCRIPTION ABOUT ALL PAGES

### Home / index page:

We have This created a responsive restaurant website featuring a sticky navigation bar, a dynamic carousel slider, and a customer reviews section. It concludes with a detailed footer containing quick links, contact information, and social media handles. Built using Bootstrap, the site ensures smooth navigation across devices. With external CSS and JS for customization, it combines modern design with functionality to provide an engaging platform for showcasing the restaurant's offerings and enhancing user experience.

### Menu Page

This link include our menu card in pdf format which is easy to accessible.

### Order Online Page

This page outlines the structure of an online restaurant ordering webpage. The page features a modern design with a responsive layout, integrating external CSS stylesheets for styling and Font Awesome for icons. The header includes a restaurant logo, navigation links to different menu sections (Starters, Main Courses, Desserts, and Beverages), a shopping cart icon, and a

hamburger menu for smaller screens.

Each menu section displays food items with images, names, prices, and "Add to Cart" buttons that include data attributes for easier cart management. A cart modal allows users to view selected items, apply promo codes, and proceed to checkout. The footer contains quick links, an "About Us" section, contact information, and social media links. External scripts handle interactivity, such as cart updates and promo code application. Overall, the page is a user-friendly and visually appealing interface for customers to order food online efficiently.
